

Anleitung Rustdesk intern

<p>1</p>	 <p>The screenshot shows the Windows search interface with the 'Rustdesk App' highlighted in blue. The search bar at the top contains the text 'Rustdesk'. Below the search bar, there are tabs for 'Alle', 'Apps', 'Dokumente', 'Einstellungen', and 'Meine Dateien'. The search results show 'Rustdesk App' with its icon and name.</p>	<p>Im Windows Suchfeld nach Rustdesk suchen.</p>
<p>2</p>	 <p>The screenshot shows the RustDesk 'Entfernten Desktop steuern' (Remote Desktop Control) window. It features a text input field labeled 'Entfernte ID eingeben' (Remote ID to enter) and two buttons: 'Datei übertragen' (Transfer file) and 'Verbinden' (Connect). On the left, there is a section for 'Ihr Desktop' (Your Desktop) with fields for 'ID' (380 727 265) and 'Einmalpasswort' (j6jpmi). A pink status notification at the bottom left says 'Status: There is a newer version of RustDesk 1.3.5 available. Zum Herunterladen' (Download). At the bottom, it says 'Bereit' (Ready).</p>	<p>Die ID muss nun an die Person vom technischen Dienst angegeben werden.</p>
<p>3</p>	 <p>The screenshot shows a mobile device screen with a permission request for 'Yannis (84253741)'. The request asks for access to the device and lists permissions for 'Berechtigungen' (Permissions): 'Anfragen senden' (Send requests), 'Dateien lesen' (Read files), 'Geräte steuern' (Control device), 'Geräte verbinden' (Connect devices), 'Geräte verbinden' (Connect devices), and 'Geräte verbinden' (Connect devices). At the bottom, there are buttons for 'Akzeptieren und Rechte erhöhen' (Accept and increase rights), 'Akzeptieren' (Accept), and 'Abbrechen' (Cancel).</p>	<p>Es erscheint nun ein Popup. Die Verbindung kann nun mit «Akzeptieren ...» angenommen werden</p>
<p>4</p>	 <p>The screenshot shows the same mobile device screen as in step 3, but now the connection is established. The status at the top says 'Verbunden 00:00:03' (Connected 00:00:03). At the bottom, there are buttons for 'Zugriff gewähren' (Grant access) and 'Verbindung trennen' (Disconnect connection).</p>	<p>Die Verbindung kann vom Benutzer über «Verbindung trennen» getrennt werden.</p>
